

## For Ultimate Printing Stability: 1 l Bag and Bulk System

**Steady ink supply and highest printing stability:**  
Enjoy a new level of efficiency with the MaraJet DI-MS 1 l bags in combination with the BS-MS Bulk System.

And while you profit from this safe, continuous ink feeding, the environment profits as well thanks to a reduced amount of waste.

### Applications

MaraJet DI-MS was specifically developed for Mimaki printers JV33/JV34, JV 5, and CJV-30.

The substrate range includes

- different qualities of PVC self-adhesive films (monomeric, polymeric, and cast PVC)
- other coated substrates like tarpaulin
- coated and uncoated fabrics
- suitable papers

For further information please refer to the MaraJet DI-MS ProductINFO on [www.marabu-inks.com](http://www.marabu-inks.com)

The different units in comparison:

	440 ml cartridge	1 l bottle	1 l bag
Fill control	frequent	regular	regular
Printing stability	+++	+	+++
Resource-saving	+	++	+++
Waste avoidance	+	+	++
Price/performance	+	++	++
Convenience	++	+	+++

### 1 l Bag MaraJet DI-MS - Your Benefits:

#### Closed system assures highest printing stability

- As safe as a cartridge
- Closed system, therefore also suited for JV 5 printers!

#### High filling volume for less frequent fill controls grants highest efficiency

- Same productivity as 1 l bottle

#### Saving Resources

- Less material compared to the cartridge
- Minimizes the volume of waste
- No chips since bulk system employs „Permanent-Chips“

### Bulk System BS-MS - Your Benefits:

#### Most convenient use

- As simple as using a cartridge

#### No modifications necessary

- No hardware or other technical modifications necessary
- Easy to install

#### Equipped with “Permanent-Chips“

- No changing of chips
- No stock-keeping
- No waste
- No extra effort for programming!
